EDUCATION

08/2018 - PRESENT **Duke University, Class of 2022**
Computer Science B.A
Visual Arts B.A

09/2014 - 05/2018 **St. Mary's High School**
High School
National Honor Society
Scholar Service Institute
Regents with Honors Diploma

WORK EXPERIENCE

05/2020 - 08/2020 **Duke OIT**
Software Development Intern
Worked on a team of four to design and develop a successful Bug Bounty Program and web application for Duke OIT. Was the UX/UI designer and front-end developer of the team, in which I used Lucid Chart and Aseprite software for the interface design and programmed the web-application in HTML, CSS, and Javascript.

05/2019 - 03/2020 **Duke Hospital Emergency Department**
Research Coordinator
Coordinated research for various studies in the Emergency Department. Worked on study to see how Duke Hospital can reduce musculoskeletal pain for patients.

10/2018 - 10/2019 **Medical Genetics Research Division at Duke University**
Animal Handler
Studied gene therapy treatments in dog models for a genetic disease called glycogen storage disease

COURSES

ENROLLED/COMPLETED

- Computer Science 101, (Introduction to Computer Science)
- Computer Science 201 (Algorithm and Data Structures)
- Computer Science 250 (Computer Architecture)

PROJECTS

10/2020 - PRESENT **Woto**
Working with a team to develop a web-application for College Office Hour management. Using ReactJS and Redux to build the front-end of the Woto Application. Currently building a calendar component for the website.
